Twelve salons in Chiba city are now further welcoming Muslim customers.

To combat any cultural inconveniences that may be faced in Japan, our beauticians are being trained in inter-cultural understanding and communication skills. By using English, we believe that we can better respond to individual requests whilst offering high quality Japanese beauty techniques and hospitality.

Please locate the most convenient salon for you through the map above, noting that business hours and service fees differ according to each salon.

For bookings, please call or email directly to the salon.
